Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visualexams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visualexams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Which two processing files should be reviewed for database size estimation? (Choose two.)

- A.job log file
- B.AcctCSR.txt
- C.yyyymmdd.txt
- D.Exceptions.txt
- E.CurrentCSR.txt

Answer: AB

2. What is the maximum number of bytes an account code can contain?

- A.8
- B.96
- C.127
- D.unlimited

Answer: C

3. What is the purpose of CPU normalization within IBM Tivoli Usage and Accounting Manager V7.1?

- A.to not charge for CPU utilization
- B.to charge less for CPU utilization
- C.to charge more for CPU utilization
- D.to charge evenly for CPU utilization

Answer: D

4. Using the IBM Tivoli Usage and Accounting Manager V7.1 Integrated Solutions Console, where are the rate tables assigned to the clients in the Client table?

- A.Chargeback Maintenance Rates
- B.Chargeback Maintenance Clients
- C.System Maintenance Users Groups
- D.Chargeback Maintenance Rate Groups

Answer: B

5. Using the database collector input, what happens to the selected data during Integrator input processing?

- A. Identifiers and resources are validated.
- B. The select output is written into a CSR file.
- C. Data fields are mapped to identifiers or resources.
- D. Resources with the same identifiers are aggregated.

Answer: C

6. What is the benefit of CSR+ Output as an Integrator output stage?

- A. More detailed data is written to the CSR files.
- B. Additional aggregation is done for the CSR file.
- C. The order of files is optimized for the next step.
- D. Index data is added in the header of the CSR record.

Answer: D

7. Click the Exhibit button.

In the Log Files panel displayed in this exhibit, the UnixDB2 process ended with a process failure.

In which step did the failure occur?

- A. UnixOS
- B. Process
- C. Integrator
- D. UnixNightly

The screenshot displays the 'Log Files' section of the Integrated Solutions Console. It shows a tree view of log entries for two main jobs: 'WinDBNightly-06:05:45' and 'UnixNightly-06:05:13'. The 'WinDBNightly' job shows a successful completion with 1 error and 1 warning. The 'UnixNightly' job shows several errors and warnings, including a failed process 'UnixDB2' and a failed step 'Integrator'. The console interface includes a date filter for 'Jun 6, 2008', a 'Refresh' button, and an IBM logo in the top right corner.

Answer: B

8. Which IBM Tivoli Usage and Accounting Manager V7.1 panel is selected to set the Trace Message and Log Message level?

- A. Troubleshooting Transactions Logging
- B. Troubleshooting Configuration Logging
- C. System Maintenance Transactions Logging
- D. System Maintenance Configuration Logging

Answer: D

9. When identifying data sources and corresponding collectors, which collector does a CSV data source require?

- A. WinDisk
- B. WinProcess

C.StandardCollector

D.UniversalCollector

Answer: D

10. Which core software for the Web Reporting Server is required to be installed?

A.SQL

B.WebSphere

C.Integrated Solutions Console

D.Microsoft Internet Information Server (IIS)

Answer: D

11. What are the minimum requirements for processor speed and memory for the IBM Tivoli Usage and Accounting Manager V7.1 Administration Server?

A.3 GHz, 2 GB

B.3 GHz, 3 GB

C.3 GHz, 4 GB

D.4 GHz, 3 GB

Answer: A

12. A customer wants to collect usage information for various types of databases in their environment.

What are two database types for which a collector is provided with in the IBM Tivoli Usage and Accounting Manager V7.1 Enterprise Collector Pack? (Choose two.)

A.DB2

B.mySQL

C.Informix

D.Sybase

E.Microsoft SQL Server

Answer: AE

13. A customer wants to collect usage information for various types of databases in their environment.

What are two database types for which a collector is provided with in the IBM Tivoli Usage and Accounting Manager V7.1 Enterprise Collector Pack? (Choose two.)

- A.DB2
- B.mySQL
- C.Informix
- D.Oracle
- E.Sybase

Answer: AD

14. Which two accounting data sources can be processed only with IBM Tivoli Usage and Accounting Manager V7.1 Server running in a Windows environment? (Choose two.)

- A.Windows Process Data Collector
- B.Oracle Data Collector for UNIX/Linux
- C.AIX Advanced Accounting Data Collector
- D.DB2 Data Collector for Windows (WinDB)
- E.Microsoft Internet Information Server (IIS)

Answer: AE

15. A customer will be using a Windows 2003 Server with SQL Server Reporting Services for their IBM Tivoli Usage and Accounting Manager V7.1 Reporting Server.

Which two components need to be present on the reporting server? (Choose two.)

- A.Microsoft SQL Server
- B.WebSphere Application Server
- C.Microsoft Internet Information Server (IIS)
- D.Microsoft Report Viewer Redistributable 2005
- E.Business Intelligence and Reporting Tools (BIRT)

Answer: CD

16. A customer wants to use DB2 on Linux for the IBM Tivoli Usage and Accounting Manager V7.1 (TUAM) database. The database has been created using a UTF-8 format.

Which two steps must be performed before initializing the database? (Choose two.)

- A.create a buffer pool for the database
- B.disable TUAM access to the database
- C.define stored procedures used to initialize the database
- D.create a Regular User tablespace and System Temporary tablespaces
- E.go to the TUAM Integrated Solutions Console System Maintenance Database Table Manager panel to create database tables

Answer: AD

17. A customer requests that Integrated Solutions Console (ISC) security be enabled for the IBM Tivoli Usage and Accounting Manager V7.1 (TUAM) application. An administrator is assigned the task of maintaining clients and rate codes.

For which TUAM ISC security group does the administrator need a user account?

- A.tuammaint
- B.tuamadmin
- C.tuamtransactions
- D.tuamchargebackadmin

Answer: A

18. What is the difference between the length and full length related to the account code structure?

- A.The length is the number of bytes for the specific entity defined by the level, while the full length is manually calculated and represents the total number of bytes for all levels.
- B.The length is the number of bytes for the specific entity defined by the level, while the full length is automatically calculated and represents the total number of bytes for all levels.
- C.The length is automatically calculated and represents the total number of bytes for all levels, while the full length is the number of bytes for the specific entity defined by the level.
- D.The length is automatically calculated and represents the total number of bytes for all levels, while the full length is the number of bytes automatically calculated for the specific entity defined by the level.

Answer: B

19. If a user requires account codes with different levels or different offset positions, what should they consider doing?

- A. use the default account code structure
- B. create alternate account code structures
- C. delete the default account code structure
- D. restrict using the default account code structure

Answer: B

20. Click the Exhibit button.

Consider the following account code:

AAABBBBCCCCDD

Which length values would be filled in the Account Code Structure Maintenance shown in the exhibit if there were four levels?

- A. 3, 4, 5, 2
- B. 2, 5, 4, 3
- C. 4, 3, 2, 5
- D. 3, 7, 11, 13

The screenshot shows the 'Account Code Structure Maintenance' window. Under 'General Properties', the 'Account Code Structure' is set to 'Standard' and the 'Starting Offset into Account Code' is set to '1'. The 'Define Account Code Levels' section contains a table with the following data:

Select	Level	Description	Length
<input type="radio"/>	1	Application	<input type="text"/>
<input type="radio"/>	2	Resource group	<input type="text"/>
<input type="radio"/>	3	Platform	<input type="text"/>
<input type="radio"/>	4	Server	<input type="text"/>

Answer: A

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
