

Exam : IBM 000-086

**Title : System x High Performance
Servers Technical Support
V4**

Version : Demo

Important Note, Please Read Carefully

Other VisualExams products

[All visualexams IT Exam Products](#)

Our products of Offline Testing Engine

Use the offline Testing engine product to practice the questions in an exam environment.

Build a foundation of knowledge which will be useful also after passing the exam.

Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to visualexams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact visualexams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. A finance company wants a solution to consolidate their storage using the DS4000 series and implement a disaster recovery solution across two data centers linked by fibre to duplicate the production environment. The customer requires a solution with the least amount of system administration. Which configuration would provide the best solution?

- A. Implement one DS4800 at each location connected to the fibre link and use Remote Volume Mirror (RVM).
- B. Implement a DS4800 at each location using FlashCopy option and use host based replication to synchronize the sites.
- C. Implement a switched fabric using redundant SAN switches with a DS4800 using RVM option at each location.
- D. Implement a switched fabric using SAN switches connected via ISL with a DS4800 using RVM option at each location.

Answer: D

2. The Integrated Adaptec AIC-9410 serial attached SCSI (SAS) controller in the x3800, x3850, and x3950 supports which of the following RAID types?

- A. RAID 0, RAID 1, and RAID 5
- B. RAID 0, RAID IE and RAID 5EE
- C. Integrated controller does not support RAID
- D. RAID 0, RAID 1, RAID IE, RAID 5, RAID 5E, RAID 5EE, RAID 5EEE, and RAID 60

Answer: C

3. A small bio-technical company is interested in implementing a 32-node Linux cluster. They have developed their own software that allows all of the nodes to work on the same problem at the same time. The application requires messages to be passed between the nodes. Each node will require access to a shared storage pool of around 500GB. Which of the following questions will identify the inter-process communication (IPC) networking requirements

- A. Is the network capable of using 4x or 12x Infiniband
- B. Will remote shell (rsh) be enabled for remote process initiation

- C. What are the data transfer requirements for inter-node message passing
- D. What type of data is being sent across the inter-process communication network

Answer: C

4. A retail customer is experiencing a performance bottleneck. The server is performing sequential I/O requests with large block sizes of 64KB. Improving which of the following storage subsystem characteristics has the biggest impact on this bottleneck?

- A. Seek Time
- B. Drive RPM
- C. Data Transfer Rate
- D. Cache

Answer: B

5. Which of the following is provided by attaching to a NAS storage system through redundant NICs?

- A. High availability (with failover)
- B. File sharing on the storage system
- C. Greater number of LUNS available on the same storage system
- D. Lower power consumption

Answer: A

6. Which of the following are functions of the XceL4v cache?

- A. Memory mirroring
- B. Approximately 5% boost in performance
- C. Reduce traffic on the front side bus in a single node server
- D. Provides a 2:1 compression ratio for data in cache

Answer: C

7. A Modular System specialist monitors a customer's server that has poor performance. The customer is running an x3850 with a ServeRAID 8i controller with write-back cache turned on and 6 drives in a RAID-5 array. It is a mission-critical server and must have a redundant storage system. Performance tests indicate

that the Average Disk secfTransfer exceeds 20 ms. Which of the following is the lowest-cost method to increase the throughput?

- A. Disable the ServRAID cache
- B. Change the RAID level to 10
- C. Change the cache level to Write Through
- D. Increase the number of read/write heads

Answer: C

8. A manufacturing customer is considering the x3850 to take advantage of hot-add memory. Which of the following questions should be asked to determine if memory can be added without taking the server offline?

- A. How much physical memory is going to be installed
- B. Will the PC3200 RDIMM's be implemented in groups of four
- C. Will the full 64GB mirrored memory capacity be implemented
- D. Will the application run in 32, 64 bit or mixed environment

Answer: A

9. A customer has a large facility that has its offices at one end and a manufacturing floor at the other. The company is looking to implement new equipment that requires access to the company's SAN that is over 2.4 kilometers away. Which of the following solutions will satisfy this requirement?

- A. Install a longwave SFP in the office SAN switch and string a multimode fibre from the office to the manufacturing floor.
- B. Install a longwave SFP in the office SAN switch and string a singlemode fibre from the office to the manufacturing floor.
- C. Install a shortwave SFP in the office SAN switch and string a multimode fibre from the office to the manufacturing floor.
- D. Install a shortwave SFP in the office SAN switch and string a singlemode fibre from the office to the manufacturing floor.

Answer: B

10. A manufacturer is deploying a custom application written to take advantage of multithreading features

and run in a Windows environment. The customer wants to know which processor family will run the application most efficiently. Which of the following questions will provide the required information?

- A. What is the application's maximum processor scaling capability
- B. Will the application run faster with Microsoft OLTP technology
- C. Will the application benefit from larger disk cache and swap space
- D. Can the application use Hot Swap Processor, Memory, and PCI-X technology

Answer: A

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
