### Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

### Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to [visualexams@hotmail.com](mailto:visualexams@hotmail.com). You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

### Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact [visualexams@hotmail.com](mailto:visualexams@hotmail.com).

## Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Want to earn a Microsoft certification like [MCSE](#), [MCSE 2003](#), [CCNA](#), [CCNP](#)? Thinking about getting an [A+](#) or [CCSP](#)?

A, [CCSP](#) or [Network+](#) Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your [Microsoft](#), Your [Cisco](#) and any other certification on the very first attempt.

## Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Your customer has an Avaya S87xx Server with Communication Manager 4.x and needs to add an additional CLAN card to meet its current traffic load.

Which two commands add a CLAN board to the system? (Choose two.)

- A. add ip-interface
- B. change node-name ip
- C. add data-module next
- D. add circuit-pack next
- E. change communication link

**Answer: AB**

2. What should be configured on Ethernet ports that are connected to IP phones if the Ethernet switch in the Avaya IP telephony system supports spanning tree and port fast features? (Choose two.)

- A. enable port fast
- B. disable port fast
- C. enable port spanning tree
- D. disable port spanning tree

**Answer: AD**

3. In an Avaya SIP Enabled Services (SES) solution built with an Avaya IP Telephony system, which Communication Manager command should be setup to ensure that a call to a 46xx SIP phone will route to the corresponding SES server user?

- A. Add station
- B. Add trunk group
- C. Add signaling group
- D. Change off-pbx telephone station-mapping

**Answer: D**

4. When defining the network region parameters you can select which RSVP option to use.

Which option is best for VoIP?

- A. reserved-load

- B. allocated-load
- C. controlled-load
- D. guaranteed-services

**Answer: D**

5. You are setting up Avaya VoIP Monitoring Manager (VMON) for a customer's Avaya IP telephony system. The default port used by VMON (5005) is already assigned in the network, and so you are assigned another port to use.

In which two locations can you change the settings to ensure VMON will work properly? (Choose two.)

- A. VMON client
- B. VMON server
- C. Linux Operation System of the media server
- D. Avaya Communication Manager of the media server via change system-parameters ip-options

**Answer: BD**

6. A customer is using Avaya 4600 Series IP Telephones on an Avaya S87xx Server using several TN799DP (CLAN) and TN2302 (Medpro) cards. One-third of the IP phones reset simultaneously. Now all the telephones are working.

Which three commands could you use to begin troubleshooting the problem? (Choose three.)

- A. list sys-links
- B. status ip-board resets
- C. status link X (X represents a communications link number)
- D. test board XXXXX (XXXXX represents a CLAN board location)
- E. test board XXXXX (XXXXX represents a Medpro board location)

**Answer: ACD**

7. What three settings need to be configured on a Layer 2 device? (Choose three.)

- A. RIP
- B. port speed
- C. IP address

- D. default gateway
- E. routing interface

**Answer:** BCD

8. Prior to running a backup procedure, what is the command that needs to be initiated in Communication Manager?

- A. reset system 4
- B. save translations
- C. list configuration all
- D. list configuration software

**Answer:** B

9. From the Command Line Interface (CLI) of an Avaya S87xx Server, which command verifies that the memory in both servers has been refreshed?

- A. server
- B. stat server
- C. list server
- D. sh server mem

**Answer:** A

10. Your objective is to enable traffic segregation in a particular network region by marking each user's traffic with a VLAN tag.

Which field on the Avaya Communication Manager Network Regions screen enables this feature?

- A. VLAN enabled
- B. RSVP enabled
- C. RTCP enabled
- D. 802.1p/Q enabled

**Answer:** D

11. How many uncompressed, unencrypted concurrent calls does the G350 Media Gateway provide when

using the G7.11 protocol?

- A. 16
- B. 24
- C. 32
- D. 64

**Answer: C**

12. You are required to configure more than 300 IP addresses.

Which IP address, subnet mask, and gateway combination is valid?

- A. (address) 192.168.10.5 / (subnet) 255.255.255.0 / (default gateway) 192.168.10.0
- B. (address) 192.168.10.5 / (subnet) 255.255.255.0 / (default gateway) 192.168.11.254
- C. (address) 192.168.10.5 / (subnet) 255.255.253.0 / (default gateway) 192.168.11.254
- D. (address) 192.168.10.5 / (subnet) 255.255.255.128 / (default gateway) 192.168.10.254

**Answer: C**

13. A customer has purchased 20 Avaya IP telephones over a period of three years. Knowing that the IEEE 802.3af standard has been ratified, the customer decided to purchase a C360-PWR switch to provide in-line power to the IP telephones.

However, only 15 of the phones power up when they are connected to the C360-PWR. Upon investigation you discover the five phones which would not receive power from C360-PWR are Generation 1 models that are not 802.3af compliant.

Which three methods should you use to power these phone? (Choose three.)

- A. 356A adapter
- B. individual power brick
- C. 1152A1 mid-span unit with adapter
- D. other vendor 802.3af compliant device
- E. IP phone 4600 Ethernet 30A base switch

**Answer: BCE**

14. If you encrypt the backup data, what type of file will the file type become?

- A. tar.tar
- B. tar.gz
- C. tar.gpg
- D. tar.cpc

**Answer: C**

15. A customer has Avaya 4600 and 9600 Series IP phones, located at a remote site connected via a WAN link. Intermittently, the end users complain of no audio or one-way audio when on a call. The customer limited the UDP port range in their routers to be 5000 to 6000.

Which command in the Avaya S87xx Server is used to find the UDP port range?

- A. status station
- B. status ip-network-map
- C. disp system-parameter ip
- D. display ip-network-region

**Answer: D**

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
