Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visual exams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visual exams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visual exams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Concatenating subdisks across multiple Volume Manager disks is called _____.

- A.mirroring
- B.striping
- C.spanning
- D.layering

Answer: C

2. Which disk configuration method brings a previously used disk with existing information under Volume Manager control while preserving the data?

- A.activation
- B.initialization
- C.retention
- D.encapsulation

Answer: D

3. Which statements are true about renaming the disk object? (Choose two.)

- A.New disk names must be unique within the disk group.
- B.All subdisks will be renamed together with the disk.
- C.The disk group needs to be offline.
- D.The new disk name must be unique within the system.
- E.Subdisks names will remain the same.

Answer: AE

4. Which vxassist parameter is used to set the size of the stripes in a stripe volume?

- A.stripesize
- B.stripecolsize
- C.stripeunit
- D.stsize

Answer: C

5. Which statement is true about adding a mirror to an existing striped volume?

- A.A concatenated plex is added to the volume by default.
- B.You can use any disks in the disk group to contain the new plex.
- C.Synchronization of the new plex is required.
- D.You should add the new plex to a different disk group for redundancy.

Answer: C

6. What are the advantages of layered volumes? (Choose two.)

- A.faster recovery time
- B.use of more VM objects

- C.better write performance
- D.higher resiliency
- E.less disk space usage

Answer: AD

7. Which vxsnap command option recreates a space-optimized instant snapshot?

- A.restore
- B.reattach
- C.refresh
- D.reassociate

Answer: C

8. Which command can be used to remove a disk interactively?

- A.vxdiskadm option "remove a disk"
- B.vxdisk remove -f -i
- C.vxdisk relocate -f -i
- D.vxdiskadm option "relocate subdisks"

Answer: A

9. Plexes in a two-way mirror are out of sync. Data in one plex is stale while the other is clean.

Which type of resynchronization will be carried out to recover the volume?

- A.read-writesync
- B.read-writeback
- C.atomic-sync
- D.atomic-copy

Answer: D

10. On which region of the disk does Volume Manager keep structural information that it uses to manage virtual objects?

- A.the plex region
- B.the platform region
- C.the public region
- D.the private region

Answer: D

11. A cross-platform data sharing (CDS) disk consists of which areas? (Choose three.)

- A.the private region
- B.the OS reserved area
- C.the public region
- D.the virtual area

E.the plex area

Answer: ABC

12. Which information does Volume Manager store in the private region?

A.disk headers

B.configuration database

C.kernel logs

D.dirty region logs

Answer: B

13. Which plex types are valid in Volume Manager? (Choose two.)

A.data

B.partial

C.log

D.slice

E.partition

Answer: AC

14. A Volume Manager disk can be divided into one or more _____.

A.disk groups

B.partitions

C.slices

D.subdisks

Answer: D

15. The disk media name is the name assigned to _____.

A.a disk by the disk array

B.a disk by the operating system

C.a disk in a disk group

D.an unused disk

Answer: C

16. Which statement is true about a subdisk?

A.It can exist on multiple LUNs.

B.It is the smallest unit of storage.

C.It is mapped to a virtual disk.

D.It consists of noncontiguous disk blocks.

Answer: B

17. In Volume Manager, which virtual storage device is used by applications in a manner similar to a physical disk?

- A.vmdisk
- B.subdisk
- C.volume
- D.plex

Answer: C

18. Which object is created when you create a volume?

- A.disk
- B.subdisk
- C.subplex
- D.slice

Answer: B

19. What are accurate descriptions of a disk group? (Choose two.)

- A.It is a collection of Volume Manager disks.
- B.It is a logical collection of subdisks.
- C.It allows Volume Manager objects to span multiple disk groups.
- D.It represents a management and configuration boundary.
- E.It is a set of contiguous disk blocks.

Answer: AD

20. What is the virtual object that Volume Manager uses to represent the structured or ordered collection of subdisks?

- A.volume
- B.plex
- C.vmdisk
- D.disk group

Answer: B

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
