Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visualexams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visualexams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Click the Exhibit button.

Which type of JumpStart configuration file is shown in the exhibit?

```
install_type      initial_install
system_type       standalone
partitioning      explicit
usedisk           c0t0d0
filesys           c0t0d0s1      128      swap
filesys           c0t0d0s0      free      /
cluster           SUNWCall
```

- A. rules file
- B. class file
- C. finish script
- D. sysidcfg file
- E. bootparams file

Answer: B

2. You believe that you have a correctly configured boot server on the local network for the JumpStart client you are currently attempting to install. Your JumpStart configuration is based on files only and does not use a naming service at any stage.

Upon running the command:

`boot net - install` the client repeatedly displays the message:

Timeout waiting for ARP/RARP packet

What are two possible causes for this? (Choose two.)

- A. The `in.rarpd` daemon is not running on the boot server.
- B. The `sysidcfg` file for the client is missing an ether entry.
- C. The client does not exist in the `rules.ok` file on the boot server.
- D. The `/etc/ethers` file on the boot server does not have an entry for the client.
- E. The `/etc/bootparams` file on the boot server has duplicate entries for the client.

Answer: AD

3. Which four JumpStart client items can be configured using the `sysidcfg` file? (Choose four.)

- A. locale
- B. name service
- C. root password
- D. client host name
- E. patch information
- F. file system layout
- G. software configuration cluster

Answer: ABCD

4. Both NIS and the sysidcfg file are configured to provide JumpStart identification services. Which statement is true?

- A. Only NIS can be used.
- B. Only the sysidcfg file can be used.
- C. Both can be used. NIS takes precedence over the sysidcfg file.
- D. Both can be used. The sysidcfg file takes precedence over NIS.

Answer: D

5. You believe that you have a correctly configured boot server on the local network for the JumpStart client currently being installed. Your JumpStart configuration is based on files only and does not use a naming service at any stage.

Upon running the command:

```
boot net - install
```

the client displays the output:

```
24000
```

and subsequently outputs the following text to the console:

```
panic - boot: Could not mount filesystem
```

```
Program terminated
```

```
ok
```

What is the cause of this problem?

- A. The root file system is not shared using NFS from the boot server.
- B. The rpc.bootparamd daemon is not running on the boot server.
- C. The installation server is missing the packages SUNWcsu and SUNWcsr.
- D. The class file contains a reference to an NFS mount which is not available.

Answer: A

6. What three tasks must be done on the NIS master to add support for a new JumpStart client? (Choose three.)

- A. re-make NIS maps with the updated client information
- B. edit the hosts file, add the new client name and IP address
- C. edit the ethers file, add the new client name and Ethernet address
- D. edit the bootparams file, add the client name and architecture type
- E. edit the rules file, add the client name and software configuration cluster information
- F. edit the class file, add the client name and location of configuration and installation servers

Answer: ABC

7. Which two commands display the list of patches installed on a Solaris system? (Choose two.)

- A. showrev -p

- B. pkginfo -l
- C. patchadd -p
- D. /usr/sbin/prtdiag -v

Answer: AC

8. Which three should you use to obtain patches? (Choose three.)

- A. World Wide Web access
- B. CD-ROM media from Sun
- C. telnet access to SunSolve
- D. anonymous ftp access to the SunSolve ftp site
- E. patch supplied from an official periodical publication

Answer: ABD

9. You want to install a patch cluster on your system to correct several problems. You decide to use the -nosave option to the install_cluster command. Which statement correctly describes the effect of this option?

- A. A log file for each patch is not created.
- B. A log file for install_cluster is not created.
- C. The individual patches cannot be removed if desired.
- D. An entry for the patch in /var/sadm/patch is not created.

Answer: C

10. Given the patch:

111021-01.zip

Which command should you use first in a series of steps to install the patch?

- A. patchadd 111021-01
- B. unzip 111021-01.zip
- C. zip -U 111021-01.zip
- D. uncompress 111021-01.zip

Answer: B

11. Which command can be used to retrieve just the /etc/inet/hosts file from the ufsdump file on the /dev/rmt/0 tape device?

- A. ufsrestore ./etc/inet/hosts /dev/rmt/0
- B. ufsrestore 0vf /dev/rmt/0 ./etc/inet/hosts
- C. ufsrestore rvf /dev/rmt/0 ./etc/inet/hosts
- D. ufsrestore svf /dev/rmt/0 ./etc/inet/hosts
- E. ufsrestore xvf /dev/rmt/0 ./etc/inet/hosts

Answer: E

12. Click the Exhibit button.

The steps that should be used to interactively restore the /etc/inet/hosts file from the second ufsdump file on a tape are shown in the exhibit.

In which order should they be executed?

```
1. extract
2. add hosts
3. cd /var/tmp
4. cd /etc/inet
5. mt -f /dev/rmt/0n fsf 1
6. ufsrestore ivf /dev/rmt/0
7. mv /var/tmp/etc/inet/hosts /etc/inet/hosts
8. quit
```

- A. 3, 6, 4, 2, 1, 5, 7, 8
- B. 3, 4, 5, 6, 2, 1, 7, 8
- C. 3, 6, 5, 2, 1, 4, 8, 7
- D. 3, 5, 6, 4, 2, 1, 8, 7

Answer: D

13. You have completed a full ufsrestore of the /(root) file system. What is the impact of not removing the /restoresymtable?

- A. It would slow down directory lookups.
- B. It would take up disk space unnecessarily.
- C. It would corrupt subsequent uses of ufsrestore.
- D. There is no impact. It is linked only to the restore that created it and will automatically be deleted.

Answer: B

14. You use the ufsrestore command to extract the whole content of a file system (stored to tape with ufsdump) onto another file system. Which statement about inode allocation is true?

- A. The new file system's inodes are allocated successively as the files are restored, independent of the inode numbers recorded to tape.
- B. ufsrestore consults the inode map in each cylinder group. If an inode to be restored is already allocated, ufsrestore quits with a fail message.
- C. The inodes are allocated such that the inode numbers after the restore are identical to the inode numbers recorded on tape, effectively overwriting inodes that had been allocated before the restore.
- D. ufsrestore tries to allocate inode numbers for the restored files as they are recorded on tape and evades to new, unallocated inodes whenever an inode number is already allocated in the file system.

Answer: A

15. You are creating a Flash archive of your existing system which is to be used to install other systems on the network in your organization. Which two are required by the flarcreate command? (Choose two.)

- A. the files to include in the archive
- B. the file in which to create the archive
- C. the name used to identify the archive
- D. the name of the user creating the archive
- E. the systems to be installed using the archive

Answer: BC

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
