Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visual exams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visual exams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visual exams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. In a VPRN the PE device is configured to run which of the following protocols? (Choose three.)

- A. MP-BGP for exchanging customer routes with other PEs
- B. A routing protocol for exchanging customer routes with the CE
- C. MPLS for exchanging labels with other provider core devices
- D. MPLS for exchanging labels with the CE devices
- E. Targeted LDP for exchanging VPRN labels with other PE devices
- F. A label signaling protocol for defining transport tunnels between PE and CE devices

Answer: ABC

2. Choose the answer that best completes the following sentence. The CE device is typically configured with _____.

- A. A single routing protocol for exchanging routes with both the internal customer routers and with the PE
- B. MP-BGP to exchange routes with the PE.
- C. MPLS and a routing protocol for the exchange of labels and routes with the PE
- D. MPLS for exchanging labels with other CE devices
- E. A routing protocol for exchanging routes with the internal customer routers and a routing protocol for exchanging routes with the PE

Answer: E

3. Which of the following terms also correctly describes a Layer 3 VPN? (Choose three)

- A. VPRN
- B. BGP/MPLS VPN
- C. VLL
- D. VPLS
- E. IP-VPN
- F. ePipe

Answer: ABE

4. What are the main functions of a Layer 3 VPN? (Choose three).

- A. Distributing customer routing information between sites
- B. Forwarding customer data packets
- C. Providing an integrated billing solution
- D. Maintaining separation between distinct customer networks
- E. Allowing the implementation of Layer 3 devices in the provider core

Answer: ABD

5. Which of the following statements are true regarding P devices in an MPLS VPRN? (Choose two.)

- A. Participate in service provider core routing
- B. P devices are not required to be MPLS enabled. MPLS is only required on the PE devices

- C. Run a common routing protocol with the CE router
- D. Must support MP-BGP
- E. Do not have any connections to the CE
- F. Must be aware of the VPRNs

Answer: AE

6. What are the two primary problems the service provider must consider when providing traditional Layer 3 VPN services using only a single common routing table in the provider core? (Choose two)

- A. Memory exhaustion in the provider core
- B. Route leaking between the customer networks
- C. CPU utilization for route processing
- D. Unwanted packet forwarding between customer networks

Answer: BD

7. When a Service Provider offers VPRN services to its customers, which of the following functions are expected to be the responsibility of the Service Provider? (Choose three)

- A. Distributing the customer generated labels between sites
- B. Distributing the customer routing information between sites
- C. Forwarding the customer originated data packets to the appropriate destination
- D. Forwarding the provider originated data packets to the appropriate customer site
- E. Providing secure layer 3 routing exchange between sites

Answer: BCE

8. In a traditional layer 3 VPN which of the following will be an issue when there is overlapping address space between two customers? Choose the best answer.

- A. There will be increased memory usage on the PE
- B. There will be increased CPU utilization on the PE
- C. The CE will reject the overlapping prefix
- D. The PE will not recognize the prefixes as being different
- E. There is no issue with overlapping address space in a traditional Layer 3 VPN

Answer: D

9. Complete the following statement. In a VPRN, the label signaled by RSVP-TE is used to _____.

- A. Identify the egress PE in the MPLS domain
- B. Signal the egress VPRN ID
- C. Identify the ingress PE in the MPLS domain
- D. transport route updates between PEs

Answer: A

10. Complete the following statement. In a VPRN, the label signaled by RSVP-TE is used to _____.

- A. Identify the egress PE in the MPLS domain
- B. Signal the egress VPRN ID
- C. Identify the ingress PE in the MPLS domain
- D. transport route updates between PEs

Answer: A

11. Complete the following statement. In a VPRN, the inner label is used to _____.

- A. Identify the customer network on the egress PE
- B. Establish the LSPs between PE devices
- C. Identify the egress PE in the MPLS domain
- D. Identify the customer network on the ingress PE

Answer: A

12. Which of the following devices would typically have VRF instances?

- A. Any CE device
- B. Any PE device
- C. Any P device
- D. Any router in the service provider core
- E. Any customer router

Answer: B

13. What operation is performed by a P device on the label signaled by MP-BGP when it receives a labeled packet for a VPRN service?

- A. It will label switch the packet based on this label
- B. It will decrement the TTL and label switch the packet based on this label
- C. It will SWAP the label for a new label and then label switch the packet
- D. The P router does not perform any operation on this label

Answer: D

14. Which of the following statements is true? Choose the best answer.

- A. A P router may forward customer packets to their destination without the presence of a route to that destination
- B. The ingress PE router may forward customer packets to their destination without the presence of a route to that destination
- C. The egress PE router may forward customer packets to their destination without the presence of a route to that destination

D. Any provider core router (P or PE) may forward customer packets to their destination without the presence of a route to that destination

Answer: A

15. Which protocol is used to exchange customer VPRN routes between PE devices?

- A. OSPF
- B. ISIS
- C. MP-BGP
- D. BGP
- E. Targeted LDP

Answer: C

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
