Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visualexams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visualexams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Which definition best describes the implementation service component within the implement phase?

- A. providing a step-by-step plan that details the installation and service-commission tasks required in order to create a controlled-implementation environment that emulates a customer network
- B. assessing the ability of site facilities to accommodate proposed infrastructure changes
- C. developing and executing proof-of-concept tests, validating high-level infrastructure design, and identifying any design enhancements
- D. installing, configuring, and integrating systems components based on an implementation plan developed in earlier phases
- E. improving a customer's infrastructure security system

Answer: D

2. Which Cisco security tool can best determine if a Cisco ISR router is properly secured?

- A. Cisco SDM Security Audit
- B. Cisco Security MARS
- C. Cisco Security Agent MC
- D. Cisco Security IntelliShield
- E. CAN

Answer: A

3. In the plan phase, network readiness assessment addresses which customer need?

- A. an assessment of the preparedness of the customer's existing system infrastructure to support a proposed solution
- B. a comprehensive design that has been customized based on the operations processes, network management processes, and tools of its system
- C. an in-depth assessment of the operational environment required to support the operation of both the current and planned solutions
- D. the optimal technologies for supporting its business requirements and objectives

Answer: A

4. In the design phase, which service component provides the customer with a comprehensive design?

- A. Implementation Plan
- B. Detailed Design Development
- C. Project Kick-off
- D. Staging Plan
- E. High-Level Design

Answer: B

5. Refer to the exhibit. What are two Cisco IOS commands that would verify connectivity between routers R1 and R2? (Choose two.)

- A. show cdp neighbor
- B. show controllers serial
- C. show frame-relay lmi
- D. show ip route
- E. show running-config

Answer: A, D

6. Which of these best describes the Cisco Lifecycle Services approach?

- A. a methodology for proactively updating equipment before it reaches the end of its life
- B. a methodology for introducing new technologies
- C. a methodology for creating a business plan
- D. a methodology for determining total cost of ownership

Answer: B

7. Which of the following best describe the customer benefit of creating a systems acceptance test plan in the design phase?

- A. reduce unnecessary disruption, delays, rework, and other problems by establishing test cases for use in verifying that the system meets operational, functional, and interface requirements
- B. improve its ability to make sound financial decisions by developing a business case based on its business requirements and establishing a basis for developing a technology strategy
- C. reduce operating costs and limit change-related incidents by providing a consistent and efficient set of processes
- D. improve the return on investment and hasten migration by identifying and planning for necessary infrastructure changes and resource additions, as well as reduce deployment costs by analyzing gaps early in the planning process to determine what is needed to support the system

Answer: A

8. At which stage of the Cisco Lifecycle Services approach should customer education presentations occur?

- A. Planning
- B. Design
- C. Implementation
- D. Operation
- E. Optimization

Answer: A

9. Which CiscoWorks component would most help you locate end-station connections at the access switch level quickly?

- A. CiscoView
- B. Resource Manager Essentials
- C. Device Fault Manager
- D. Campus Manager

Answer: D

10. On what lower-level transport protocol does CiscoWorks LAN Management Solution rely on and why?

- A. TCP, because CiscoWorks LAN Management requires that packets require the reliability in the network
- B. UDP, because CiscoWorks LAN Management is an application that does not require the reliability of TCP
- C. IP, because CiscoWorks LAN Management requires the reliability of IP packets
- D. UDP, because CiscoWorks LAN Management requires the reliability of UDP's detection of lost packets and retransmission
- E. TCP, because CiscoWorks LAN Management does not require detection and retransmission of lost packets

Answer: B

11. At which stage of the Cisco Lifecycle Services approach would you test for system acceptance?

- A. Preparation
- B. Planning
- C. Design
- D. Implementation
- E. Operation
- F. Optimization

Answer: D

12. What is the purpose of the Dynamic Configuration Tool?

- A. to determine the correct IOS image to support your modules or blades
- B. to allow for the mass deployment of devices with minimal configurations
- C. to test router configurations virtually prior to implementing them in your production network
- D. to provide an easy way to check for known bugs in IOS releases
- E. to verify that hardware such as modules are compatible with your chassis

Answer: E

13. After properly configuring multiple VLANs, an administrator has decided to secure its VLAN network. Which three steps are required to secure this environment? (Choose three.)

- A. If a port is connected to a foreign device make sure to disable CDP, DTP, RPR, PAgP, UDLP, and any other unnecessary protocols, and enable UplinkFast/BPDU guard on it.

- B. Enable root guard feature to prevent a directly or indirectly connected STP-capable device from affecting the location of the root bridge.
- C. Configure VTP domains appropriately or turn off VTP altogether to limit or prevent possible undesirable protocol interaction with regards to the network-wide VLAN configuration.
- D. Set the native VLAN ID to match the port VLAN ID of any 802.1q trunk to prevent spoofing.
- E. Disable all unused ports and place them in an unused VLAN to avoid unauthorized access.

Answer: B, C, E

14. What is one benefit of the Cisco anti-X defense strategy?

- A. applications security
- B. virtual firewall protection
- C. security events correlation for proactive response
- D. malware, virus, and worm mitigation

Answer: D

15. Which two of these statements best describe the benefits of the Cisco Compatible Extensions Program?

(Choose two.)

- A. offers a feature-rich implementation alternative to Wi-Fi certification
- B. accelerates the availability of innovative features while maintaining interoperability
- C. provides innovative features only on Cisco's wireless client adapters
- D. provides an evolving set of specifications for interoperability
- E. eliminates the need for testing by providing innovative features to wireless client vendors through a one-time license fee

Answer: B, D

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
