

Exam : Cisco 642-651

**Title : Cisco Wide Area Application
Services for System
Engineers**

Version : Demo

Important Note, Please Read Carefully

Other VisualExams products

[All visualexams IT Exam Products](#)

Our products of Offline Testing Engine

Use the offline Testing engine product to practice the questions in an exam environment.

Build a foundation of knowledge which will be useful also after passing the exam.

Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visualexams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visualexams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

VisualExams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Which LAN traffic management feature is fully supported by Cisco WAAS?

- A. intrusion detection system
- B. QoS
- C. NBAR
- D. MPLS

Answer: B

2. Your customer's Cisco WAAS design calls for the Central Manager to be deployed on the Core WAE, which is a WAE-612 with 2GB of RAM. The customer initially configured the WAE as an application accelerator, and then issued the device mode central-manager command to enable Central Manager service. Now the customer reports that the WAE is no longer accelerating traffic. What is the problem?

- A. The Central Manager and application accelerator cannot be deployed on the same WAE.
- B. At least 4GB of RAM must be installed for the WAE to serve as both Central Manager and application accelerator.
- C. The device mode central-manager command must be issued before the device mode application-accelerator command.
- D. Central Manager is consuming too much CPU time on the WAE. The Central Manager service should be implemented on a less-utilized edge WAE.

Answer: A

3. In a Cisco WAAS environment, which TCP connection establishment messages should you examine if your customer has sent you a TCP protocol trace and asked for your help in understanding why the WAE appliances are failing to negotiate the correct, optimized policy?

- A. SYN and FIN
- B. SYN and ACK
- C. SYN and SYN ACK
- D. ACK and SYN ACK

Answer: C

4. Which two options correctly identify the WAE file services integration modes available in Cisco WAAS? (Choose two.)

- A. transparent, in which the WAE appears as a node on the remote office LAN
- B. transparent, in which the WAE does not appear as a node on the remote office LAN
- C. non-transparent, in which the WAE appears as a node on the remote office LAN
- D. non-transparent, in which the WAE does not appear as a node on the remote office LAN

Answer: BC

5. You have configured a Central Manager WAE cluster for your customer. After a technician accidentally unplugs the power cord from the primary Central Manager WAE, the network administrator calls you to

complain that the standby Central Manager WAE did not automatically assume the primary role. What should you tell this administrator?

- A. You should verify that the datafeed.pollrate setting is configured properly.
- B. You should make sure the two Central Manager WAE appliances are on the same subnet
- C. You must manually copy the Central Manager database to the standby Central Manager WAE.
- D. You must manually initiate failover and fallback processes on the WAE.

Answer: D

6. Your customer has purchased multiple Cisco WAE appliances, but does not want to dedicate one WAE for management purposes only. How would you advise this customer?

- A. There must be at least one Central Manager available for configuration and management tasks.
- B. The data center WAE can be used for both the Central Manager and Application Accelerator roles.
- C. There is no need for a dedicated Central Manager; all configuration tasks can be performed on the application accelerators using the WAE device CLI and GUI.
- D. If one of the WAE appliances is configured as the Central Manager, then later, after all application accelerators are registered and on line, the Central Manager WAE can be reconfigured as an application accelerator.

Answer: A

7. When you size a Cisco WAAS solution, you should assume that how many of the total number of concurrent TCP connections per user will be optimized?

- A. 1-2
- B. 4-7
- C. 14-20
- D. 25-40

Answer: B

8. When using PBR, what do you need to configure to enable failover?

- A. QoS
- B. MPLS
- C. IP SLAs
- D. NetFlow

Answer: C

9. What are three benefits of using the Cisco WAE file blocking feature? (Choose three.)

- A. eliminates data redundancy
- B. reduces the use of network resources
- C. minimizes the transfer of unsanctioned data
- D. prevents multiple users from attempting to edit the same file

- E. controls which file types are stored on the data center file server
- F. ensures that files cannot be edited until they are synchronized between the branch and the data center

Answer: BCE

10. Your customer is using firewalls. What must be permitted to pass through the firewalls in order to allow WAE auto-discovery?

- A. TCP options
- B. TCP port 139
- C. TCP port 445
- D. TCP SYN-ACK with data

Answer: A

11. Which two functions does the Central Manager provide in a Cisco WAAS environment? (Choose two.)

- A. application acceleration
- B. management of CIFS servers
- C. application statistics monitoring
- D. configuration backup and restore
- E. policy configuration and distribution

Answer: CE

12. How does Cisco WAAS advanced compression DRE improve on traditional LZ compression?

- A. by removing the transmission of previously-seen data
- B. by pre-positioning often-used file segments on the edge WAE appliances
- C. by comparing hashes of each file version to avoid unnecessary file synchronization
- D. by implementing a more aggressive, hardware-intensive version of the LZ compression algorithm

Answer: A

13. How can you monitor optimization statistics for a given application across multiple Cisco WAE devices?

- A. Create a device group for all WAE devices on which that application is optimized.
- B. Create a location group for all WAE devices on which that application is optimized.
- C. Create a separate application traffic policy for each application.
- D. Ensure that each application resides on a different subnet.

Answer: A

14. In a WAAS Application Traffic Policy, what are three valid match conditions for traffic classifiers? (Choose three.)

- A. IP address
- B. routed protocol
- C. routing
- D. subnet

E. TCP port

F. UDP port

Answer: ADE

15. Your customer is using PBR as the interception method on its routers. Which mechanism would you recommend to ensure WAE availability and failover if a WAE fails?

A. enable NetFlow to track WAE appliances

B. enable IP SLAs to track WAE appliances

C. nothing, PBR automatically tracks WAE appliances

D. nothing, PBR does not support the tracking of WAE appliances

Answer: B

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
