Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visual exams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visual exams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visual exams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. You are meeting with an enterprise customer that has a multivendor network. Which Cisco Security product should you position with this customer?

- A. CiscoWorks VPN/Security Management Solution Basic
- B. Cisco Security MARS
- C. Cisco Router and Security Device Manager
- D. Cisco PIX Device Manager

Answer: B

2. Which security management offering helps customers to readily and accurately identify, manage, and mitigate network attacks and to maintain network security compliance?

- A. Cisco Security Manager
- B. Cisco Network Assistant
- C. Cisco NAC
- D. Cisco Security MARS
- E. Cisco Security Agent
- F. Cisco Trust Agent

Answer: D

3. In terms of the network life-cycle, what should you consider when evaluating the TCO of a security solution?

- A. planning and design phases
- B. implementation and operation phases
- C. the entire network life-cycle
- D. operation phase
- E. planning phase

Answer: C

4. You are meeting with a customer who is concerned about ongoing network threats and vulnerabilities within the corporate network. How should you position the Cisco SDN with this customer?

- A. The Cisco Self-Defending Network is the Cisco solution that protects the network of an organization. The SDN strategy offers security products that will defend your network before attacks occur. SDN products use industry-leading technologies, which will enable your company to stay up to date on network security.
- B. Cisco NAC is a complete, end-to-end security solution that enables endpoints to be admitted to the network based on their adherence to security policy as enforced by network devices, such as routers and switches. NAC is a solution that will protect business processes and the network of your organization by identifying, preventing, and adapting to security threats.
- C. Cisco SDN solutions are adaptive, allowing for innovative behavioral methods to be deployed in order to automatically recognize new types of threats as they arise. Mutual awareness can exist among and

between security services and network intelligence, thus increasing security effectiveness and enabling a much more proactive response to new types of threats.

D. Most network threats and vulnerabilities arise from inefficient access control. Cisco VLAN solutions are a part of the Self-Defending Network strategy, and can segment users into different workgroups or virtual LANs based on whom they are, not where they are. In turn, VLAN solutions prohibit hackers from gaining network access, and will dramatically lessen the pains you are experiencing with network threats and vulnerabilities.

Answer: C

5. Which Cisco Security Solution helps organizations to effectively avoid disruptions that are caused by worms or viruses, while also helping to control the costs of deploying and maintaining a secure network?

- A. CiscoWorks VPN/Security Management Solution
- B. Cisco Security Monitoring, Analysis and Response System
- C. Theft of Information Solution
- D. Outbreak Prevention Solution

Answer: D

6. How does the Cisco Security Agent work in conjunction with third-party antivirus software?

- A. Cisco Security Agent checks the status of third-party antivirus software and makes a decision about compliance.
- B. Cisco Security Agent checks the status of third-party antivirus software and forwards it to the third-party antivirus policy server.
- C. Cisco Security Agent checks the status of third-party antivirus software and forwards it to the policy server (ACS).
- D. Cisco Security Agent enhances the security by sandboxing the applications and the system in addition to the antivirus protection offered by the antivirus software.
- E. Cisco Security Agent makes the antivirus software superfluous.

Answer: D

7. Which security pain point can be resolved by each of these security products: Cisco ASA 5500 Series Adaptive Security Appliances, Cisco PIX Firewall 500 Series, Cisco Security Agent, and the Cisco Guard DDoS Mitigation Appliances?

- A. business disruption from an Internet attack, such as viruses, worms, and/or hackers
- B. difficulty enforcing compliance to security policies that govern desktop antivirus software
- C. extension of the investment in an existing Cisco router by making it a fully secure WAN device
- D. remote employees that require access to the corporate network
- E. firewall functionality that scales from the branch office to the network core

Answer: A

8. Which three technologies allow the Cisco SDN to adapt to new threats as they arise? (Choose three.)

- A. antivirus
- B. application awareness
- C. behavior recognition
- D. firewalling
- E. network control
- F. VPN

Answer: BCE

9. Why do end users need to be aware of the security policy?

- A. Some security decisions are usually in their hands.
- B. They should understand the probability of every risk.
- C. They need to be aware of every threat.
- D. They should avoid responsibility for their actions.

Answer: A

10. Which three elements should an enterprise security policy specify? (Choose three.)

- A. risks and how to manage the risks
- B. network inventory
- C. user roles and responsibilities
- D. software versions of the security products
- E. contingency plan in case of compromise
- F. funds allocated to security projects

Answer: ACE

11. Which business enabler provides a defense against damages and losses (such as financial, legal, commercial, image, branding, property, and people), which directly affect the ability of a company to do business?

- A. government regulations
- B. protection
- C. ubiquitous access
- D. contribution to profitability

Answer: B

12. Which two factors should be considered when calculating the cost of downtime? (Choose two.)

- A. number of compromised servers
- B. server downtime (in hours)
- C. time (in hours) to rebuild servers
- D. average revenue per hour

Answer: BD

13. To successfully sell security products, you must identify customer pain points, and then map those pain points to Cisco Security Solutions that solve them through successful threat mitigation. What are three Cisco Security Solutions that directly relate to common security pain points that are identified in the annual CSI/FBI Computer Crime and Security Survey? (Choose three.)

- A. Application Abuse Prevention Solution
- B. DDoS Attack Solution
- C. Anti-Spyware Solution
- D. Internal Threat Prevention Solution
- E. Outbreak Prevention Solution
- F. Theft of Information Solution

Answer: BEF

14. Which three of these are key elements of the Adaptive Threat Defense? (Choose three.)

- A. multilayer intelligence
- B. a blend of IP and security technologies
- C. active management and mitigation
- D. dynamic adjustment of risk ratings
- E. feature consistency
- F. intrusion detection system

Answer: ACD

15. Which statement best describes the Cisco SDN strategy?

- A. The SDN strategy is to protect standalone products at the physical perimeter of a network, where the LAN meets the WAN and corporate networks connect to the Internet.
- B. The SDN strategy is to protect business processes and the network of an organization by identifying, preventing, and adapting to security threats and by including integrated, collaborative, and adaptive security elements throughout the network.
- C. The SDN enables network elements to communicate with one another in a collaborative manner, for example, an IDS instructing an ACL to deny access to a connection.
- D. The SDN is the most widely deployed network-admissions-control strategy, supporting organizations of all sizes as well as multiple access methods, including wireless, remote, LAN, WAN, and guest access.

Answer: B

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
