### Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visualexams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

### Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to [Visualexams@hotmail.com](mailto:Visualexams@hotmail.com). You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

### Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact [Visualexams@hotmail.com](mailto:Visualexams@hotmail.com).

### Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

**Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.**

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

## **Guarantee**

Visualexams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Which task must be performed prior to starting a merging process between two switches? (Select two.)

- A. Remove duplicated domain IDs.
- B. Set port speed of ISL ports to a fixed value.
- C. Disable zoning configuration on both switches.
- D. Enable the same passwords on both switches.
- E. Check to see if the same feature licenses are installed.

**Answer:** AE

2. Which zoning type must be used in a heterogeneous fabric with M-Series and B-Series switches?

- A. VSAN zoning
- B. name server zoning
- C. fabric address zoning
- D. domain-port-area zoning

**Answer:** B

3. Where do you install the HP Cluster Extension (CLX)?

- A. on the switch as a license
- B. on all servers in the cluster
- C. on one cluster server at each site
- D. on the same server as Command View

**Answer:** B

4. A customer has asked you to implement VSANs in a C-Series fibre channel switch fabric. What is a unique feature of VSANs?

- A. It allows you to apply different fabric settings in one switch.
- B. It allows you to connect different vendor switches to one infrastructure.
- C. It allows you to configure more than one management IP address per switch.
- D. It allows you to minimize oversubscription on connected ISLs through path load balancing.

**Answer:** A

5. Which fabric migration path is shown in the exhibit?

- A. meshed to tree
- B. cascaded to tree
- C. cascaded to meshed
- D. meshed to cascaded

**Answer:** B

6. You are implementing an extended SAN infrastructure between two data centers which are 9km apart. HP StorageWorks Edge Switch 2/24 is used in this environment. Which ports could be used to connect the ISL between this data centers?

- A. All ports support links for this distance by default.
- B. You must enable the extended ISL ports individually.
- C. The first four ports can connect a long-distance ISL.
- D. Long-distance ISL ports must be unlocked by a license.

**Answer: C**

7. What are typical consequences of insufficient knowledge transfer to the customer for their SAN environment? (Select two.)

- A. unused bandwidth
- B. wasted disk space
- C. management errors
- D. event misinterpretation
- E. unnecessary FC data traffic

**Answer: CD**

8. During the SAN architecture process, the SAN architect must explain to the stakeholders how the new infrastructure will be realized. Which information should this explanation contain?

- A. options that can be installed at a later time
- B. current SAN components that will be utilized
- C. details about storage and SAN management
- D. overview of HP multivendor support services

**Answer: B**

9. What is the customer's responsibility rather than the SAN architect's?

- A. data availability
- B. data protection
- C. SAN scalability
- D. SAN protection

**Answer: D**

10. What are the primary responsibilities of the SAN architect? (Select three.)

- A. ensuring data protection
- B. ensuring data availability
- C. solving revision conflicts
- D. solving SAN scalability issues
- E. solving management problems
- F. ensuring database consistency or validity

**Answer: ABD**

11. What is considered during the SAN architecture process? (Select three.)

- A. hardware shipping dates
- B. built-in SAN management
- C. future customer requirements
- D. product-related implementation
- E. integration of old storage systems

**Answer:** BCE

12. What must a SAN architect know to assess the data streams for a given SAN?

- A. total port count
- B. application behavior
- C. RAID implementation
- D. used storage capacity

**Answer:** B

13. What is the outcome of the SAN architecture process?

- A. detailed SAN implementation plan, maps, and guidelines
- B. timeline for SAN deployment based on staff requirements
- C. framework for making all choices for the storage infrastructure
- D. cost-benefit analysis for the SAN based on requirements and growth

**Answer:** C

14. Customer infrastructure assessment involves evaluation of the IT employees' skills. What is the primary purpose of evaluating the employees' skills?

- A. identification of adequate management software
- B. recommendation of required employee changes
- C. development of adequate SAN management disciplines
- D. recommendation of an adequate service level agreement

**Answer:** C

15. What benefit does the customer gain from the SAN assessment?

- A. the awareness of current IT management issues compromising the business
- B. a strategic roadmap identifying components and costs associated with SAN technologies
- C. the impression that the IT infrastructure is not up to date and must urgently be reorganized
- D. detailed knowledge of the current IT inventory and all implementation bugs and management mistakes

**Answer:** B

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
