Latest Version

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at VisualExams and update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to <http://www.visual exams.com/>
2. Log in the **User Center**
3. The latest versions of all purchased products are downloadable from here. Just click the links.

Feedback

If you spot a possible improvement then please let us know. We always interested in improving product quality.

Feedback should be send to Visual exams@hotmail.com. You should include the following: Exam number, version, page number, question number, and your login Account.

Our experts will answer your mail promptly.

Explanations

This product does not include explanations at the moment. If you are interested in providing explanations for this exam, please contact Visual exams@hotmail.com.

Features

- Comprehensive questions with complete details
- Instant Downloadable in PDF form.
- Verified Answers Researched by Industry Experts
- Questions accompanied by exhibits.
- Drag and Drop questions as experienced in the Actual Exams.
- These questions and answers are backed by our GUARANTEE.
- Questions updated on regular basis.
- Like actual certification exams our product is in multiple-choice questions (MCQs)

Commitment to Your Success: At VisualTestExam.com, we are committed to you ongoing success. Our exams and questions are constantly being updated and compared to industry standards.

Want to earn a Microsoft certification like MCSE, MCSE 2003, CCNA, CCNP? Thinking about getting an A+ or CCSP?

A, CCSP or Network+ Certification with less effort and time. You will be astonished at the theoretical and practical knowledge you will acquire in such a short period of time using our Certification Training Products. Our Study material will enable you to pass your Microsoft, Your Cisco and any other certification on the very first attempt.

Guarantee

VisualExams provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if somehow you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

1. Which two types of journals can be defined for a table? (Choose two.)

- A. Transient LOCAL AFTER JOURNAL
- B. Transient UPDATE ONLY JOURNAL
- C. Permanent UPDATE ONLY JOURNAL
- D. Permanent LOCAL AFTER JOURNAL
- E. Permanent DUAL BEFORE JOURNAL

Answer: DE

2. Which type of processing workload is least likely to justify the cost of upgrading a system?

- A. executive report
- B. daily sales report
- C. quarter end report
- D. nightly batch process

Answer: C

3. How are Volatile tables similar to Derived tables? (Choose three.)

- A. are local to the query
- B. table definition kept in memory
- C. are designed for optimal performance
- D. have no Data Dictionary access or transaction locks

Answer: BCD

4. Which two utilities can you use to export data for a report using RECORD mode from the Teradata database? (Choose two.)

- A. BTEQ
- B. TPump
- C. FastExport
- D. Teradata SQL Assistant

Answer: AC

5. What are two characteristics of an aggregate join index? (Choose two.)

- A. can be directly referenced by a query
- B. must contain more than one table reference
- C. can be created using a Global Temporary table
- D. automatically reflects changes in the underlying detail data
- E. COUNT is automatically present if SUM is used

Answer: DE

6. Which four factors are important to consider when deciding whether to calculate summary results on demand or to create a summary table? (Choose four.)

- A. concurrency of users
- B. typical rows per value
- C. response time requirements
- D. complexity of the calculations
- E. frequency of summary request
- F. volatility of the column to summarize

Answer: CDEF

7. Why should you create a view with aggregation? (Choose two.)

- A. to reduce query complexity
- B. to minimize macro executions
- C. to improve query performance
- D. to minimize summary table maintenance

Answer: AD

8. To ensure you are working with current, consistent data, which lock should you recommend for SELECT queries in a multi-user environment with update activity?

- A. read
- B. write
- C. access

D. exclusive

Answer: A

9. What are three characteristics of tactical queries? (Choose three.)

A. highly tuned

B. use direct access path

C. multiple tables scanned

D. defined response time requirements

Answer: ABD

10. Denormalization is done in which phase of modeling?

A. logical

B. physical

C. dimensional

D. extended logical

Answer: B

11. Which three statements are true about the Extended Logical Data Model (ELDM)? (Choose three.)

A. It contains the business rules of the organization.

B. It is the main source of information for creating the PDM.

C. It maps applications and transactions to the related objects.

D. It provides demographics of data distribution, sizing, and access.

Answer: BCD

12. What are three characteristics of third normal form? (Choose three.)

A. There are no repeating groups.

B. Indexes are defined on the attributes.

C. Attributes must relate to the entire foreign key.

D. Attributes must relate to the entire primary key.

E. Attributes must relate to the primary key and not to each other.

Answer: ADE

13. Which three are introduced in the ELDM? (Choose three.)

- A. foreign keys
- B. index selection
- C. join access rows
- D. column nullability
- E. maximum rows null
- F. value access frequency

Answer: CEF

14. Which application development API provides maximum control over Teradata connectivity?

- A. CLI
- B. ECLI
- C. ODBC
- D. Embedded SQL

Answer: A

15. Which application development API requires a pre-processor in addition to a compiler for a high-level language?

- A. CLI
- B. ECLI
- C. ODBC
- D. Embedded SQL

Answer: D

16. What are three characteristics of PP2? (Choose three.)

- A. supports macros
- B. supports multiple sessions
- C. supports COBOL, PL/I, C, and Pascal

D. uses indicator variables for NULL handling

Answer: ABD

17. What are three reasons for running Visual Explain on queries during application development? (Choose three.)

A. to establish run times

B. to determine access paths

C. to determine locking profiles

D. to validate the usage of indexes

E. to calculate necessary spool space requirements

Answer: BCD

18. What does the Statistics Wizard do? (Choose three.)

A. allows for "what-if" analysis

B. allows you to schedule statistics collection

C. makes recommendations based on table demographics

D. allows importing of workload from other Teradata utilities

Answer: BCD

19. What does the TSET utility do? (Choose two.)

A. creates a view of your data demographics

B. allows you to schedule statistics collection

C. allows for the importing of workloads from other Teradata utilities

D. allows you to import data demographics from one system to another

E. allows you to import system characteristics from one system to another

Answer: DE

20. Which two tools allow you to import workloads from other Teradata tools? (Choose two.)

A. TSET

B. Index

Wizard

C. Visual Explain

D. Statistics Wizard

Answer: BD

Visualexams.com was founded in 2006. The safer,easier way to help you pass any IT Certification exams . We provide high quality IT Certification exams practice questions and answers(Q&A). Especially Adobe, Apple, Citrix, Comptia, EMC, HP, HuaWei, LPI, Nortel, Oracle, SUN, Vmware and so on. And help you pass any IT Certification exams at the first try.
